

Clark Forklift Part

Clark Forklift Parts - Presently, there are over 350,000 Clark lift trucks performing worldwide, and in excess of 250,000 in commission in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift has 20 distinctive makes of forklifts, with parts covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Centers are conveniently located in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to enhancing output and benefiting performance.

Clark Totalift has a very outstanding global support network. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's continual goal to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift producer across the globe to be certified with the globally accepted quality standard ISO 9001 for every one of their manufacturing facilities. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be ready for any number of environmental restrictions, thus placing them in a dominant industry position.

Clark has selected the structure of "Lean Manufacturing" at all of its assembly plants because this method is extremely economical and allows for minimal use of resources. Developed to ensure maximum proficiency, this system is designed to find and acknowledge the most efficient ways for production plant management. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards improving product effectiveness while minimizing expenses. The new value engineering agenda combines modern product development and offers improved client support and service within the industry.
