

## Concrete Hopper

Concrete Hoppers - This particular attachment is a self-dumping hopper which automatically sets off to unload as bumper release touches the side of a dumpster. Once unloading is done, the hopper goes back to an upright and locked position. This particular piece of machinery even comes with a cable that enables operation from the seat of the forklift in order to have the alternative of manually unloading the hopper. There is a locking chain provided in order to secure the hopper to the tine truck. This product is made with reliable and consistent robotic welds for maximum strength. The forklift dumping hopper even has a blue powder coat finish to be able to maintain durability.
