

Meritor Parts

Meritor Part - The Meritor Company is a premier global dealer founded upon one hundred years of tradition of service and quality. Meritor specializes in integrated systems together with different modules and parts to the original machine manufacturers and aftermarket equipment within the industrial and transportation trades.

Meritor values the requirements of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their competitive advantage in their global operations. Meritor starts with a philosophy that values diversity of individuals and their broad thought processes. Operating in 19 countries and employing more than 11,200 individuals, Meritor promotes innovation and collaboration amongst a team of experienced professionals.

Meritor strongly believes in only hiring future focused people. These top-caliber people can quickly adapt to changing surroundings and freely demonstrate the level of commitment and performance considered necessary to be able to get results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor provides their employees various opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that include drivelines, axles, braking and suspension systems designed for heavy duty and medium trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is also responsible for supporting the requirements of all their global engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 nations.

They have their supplier network that is specifically located so as to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each region. The team is even included transactional Green Belts who make use of Six Sigma tools to business processes and apply lean methods.
